STAT

1:500,000
The information on the latest Institut Geographique National (IGN) maps of French Guiana, collaborated by information in Despatch 59 (10/27/50) from Martinique, F.W.I., delineates the southern boundary of French Guiana with Brazil quite differently than that shown on the 1:1,000,000 World Aeronautical Chart (no. 894) and the 1:1,000,000 Map of Hispanic America (Sheets NA 21, NA 22). *impossible*

It is requested that the enclosed copy of WAC 894 be returned with the correct boundary alignment or comments.
